Top FAQs

Will people be displaced?
We are replacing all existing apartments with new, deeply affordable Section 8 apartments—meaning there will be a place for all current households. Some families will need to temporarily relocate, and BHA will ensure every family receives an appropriate relocation apartment.

What will the parking situation be like?
The goal is to maintain about the same level of parking for existing residents. Current residents will not be charged for parking.

Will there be laundry facilities available for us to use?
All new buildings with affordable apartments will have at least one common laundry room available for residents to use.
Top FAQs

Who will manage the buildings?

The new buildings will be managed by TCB or a third-party management company. The BHA will continue to manage the existing buildings.

What will be done for safety and security?

Good lighting, cameras, secure locks on doors and windows, new building configurations with a limited number of building entrances, and new roadways will assist with security.
